

**brand eins Wissen: valantic among best business consultants**

## “Best consultants of 2019“: another award for valantic

- *brand eins Wissen* economic magazine and *Statista* statistics portal list valantic as one of Germany's best business consultants of 2019
- The biggest, most comprehensive survey on this topic is based on the verdict and recommendations of consultants and their clients

**Munich, May 6, 2019:** Consultants and clients have once again voted for Germany's best business consultants and awarded valantic as the “Best consultants of 2019”. This prestigious title is based on a survey done by brand eins Wissen economic magazine and Statista statistics portal.

The biggest and most comprehensive survey of its kind involved partners of consulting firms as well as around 1,500 executives of companies engaging consultancy services. Top placements only go to those consultancies whose clients perceive their excellent consulting qualities. Once again, valantic received top marks in the industries “Automotive & Suppliers” and “Mechanical & Plant Engineering” as well as in the work areas “Purchase & Supply Chain Management” and “Operations Management”.

“The recommendations of clients and experts once again show us that we're very good at what we do with passion: opening up the huge potentials of digitalisation together with our clients,” says Dr. Holger von Daniels, CEO and Partner at valantic. “The path to an intelligent business is paved by new thinking in terms of structures and processes, but also by plenty of hands-on work. Silos have to be broken down and, in many cases, data quality has to be increased. Only then can technologies like Artificial Intelligence and Data Analytics truly be used to gain competitive advantage.”

The industry reports have been published since 2014 and are a joint project of brand eins Wissen and Statista statistics portal. They combine analytical yet entertaining economic stories with a big survey and resulting best-in-industry rankings. The magazine will publish the complete results in their 2019 “Consulting” brand eins industry report. The special edition offers a comprehensive best-in-industry overview as well as a complete ranking of Germany's 308 best consultants in 16 industries and 18 work areas.
